Due to a program glitch in our filing software, Check No. 2281 in the amount of \$13,900 was issued with a date of 3/8/14. Therefore, when the initial April 20, 2013 report was filed, Check No. 2281 was not reported because it was issued out of the date range covered by the April 20 report. Upon discovering this error, the date in the filing system was changed to the correct issue date of 3/8/13 and an amended report was filed.
